 /in/sbinjacob

Key Strengths

- ❖ **Self-Taught SRE:** Acquired proficiency in Site Reliability Engineering practices through self-learning.
- ❖ **Learning Agility:** Willingness to learn and adapt to new technologies.
- ❖ **Dedicated Work Ethic:** Hardworking and always goes above and beyond to achieve goals.
- ❖ **Monitoring & Automation Tools:** Experience in monitoring tools for system performance.
- ❖ **Problem Solving:** Strong analytical and troubleshooting skills.
- ❖ **Automation and Scripting:** Proficient in scripting and automation for task efficiency.
- ❖ **Incident Response:** Effective response to incidents and contribution to post-incident reviews.

Products Handled

IBM Planning and Analytics

Role: Site Reliability Engineer

Company: IBM India Private Limited.

Date: Feb 2024 to Present

Product Description: IBM Planning Analytics is an AI-powered, cloud-based financial planning and analysis (FP&A) solution built on IBM TM1. It helps organizations streamline budgeting, forecasting, and reporting by integrating data from various sources for real-time insights. With features like multidimensional modeling, scenario analysis, and predictive analytics, businesses can make data-driven decisions faster. It also offers an Excel-based interface (PAfE) and a web-based dashboard (PAW) for ease of use.

Responsibilities:

- ❖ **Monitoring & Incident Management:** Proactively monitored system performance and availability, responded to incidents, and performed root cause analysis to ensure high uptime..
- ❖ **Customer Support & Issue Resolution:** Handled customer requests, investigated reported issues, and provided timely resolutions to minimize business impact.
- ❖ **Automation & Infrastructure Management:** Developed automation scripts and processes to improve deployment efficiency, system reliability, and operational scalability.
- ❖ **Capacity Planning & Performance Optimization:** Analyzed system usage patterns, optimized resource allocation, and recommended performance improvements.

- ❖ **On-Call Support & Maintenance:** Participated in on-call rotations to address critical system issues and performed scheduled maintenance activities.

**Equifax
RiskDecisioning
InterConnect(IC)**

Role: Site Reliability Engineer (Developer II - Software Engineering)

Client: Equifax Inc.

Date: Feb 2021 to Feb 2024

Client & Product Description: Equifax Inc. is an American multinational consumer credit reporting agency and is one of the three largest consumer credit reporting agencies, along with Experian and TransUnion. Equifax Risk Decisioning Interconnect is a platform offered by Equifax to facilitate risk decisioning processes for businesses. It provides access to a network of credit data, advanced analytics, and decisioning tools to help businesses make informed decisions about extending credit, managing risk, and enhancing customer experiences.

Responsibilities:

- ❖ Experience in managing and optimizing cloud infrastructure on **AWS** and **GCP**.
- ❖ Monitor and maintain the availability, performance, and scalability of production systems and services.
- ❖ Proactively identify and address potential issues to prevent service disruptions and optimize system performance.
- ❖ Implement and enhance infrastructure-as-code (IaC) and configuration management practices to automate deployment and configuration processes.
- ❖ Conduct incident response and participate in on-call rotations to promptly resolve and mitigate system incidents.
- ❖ Continuously improve system reliability through post-incident analysis, root cause identification, and the implementation of preventive measures.
- ❖ Develop and maintain monitoring and observability systems to provide real-time visibility into system health and performance.
- ❖ Implement and manage disaster recovery strategies and processes to ensure business continuity.
- ❖ Automate routine operational tasks and develop tooling to improve efficiency and reduce manual effort.

**Equifax
Global Consumer
Solutions(GCS)**

Role: Site Reliability Engineer (Developer I - Software Engineering)

Client: Equifax Inc.

Date: Nov 2020 to Jan 2021

Client & Product Description: Equifax Inc. is an American multinational consumer credit reporting agency and is one of the three largest consumer credit reporting agencies, along with Experian and TransUnion. Equifax Global Consumer Solutions provides credit information, monitoring, and identity theft protection services globally.

Responsibilities:

- ❖ Focusing primarily on legacy systems, which were previously hosted on our own infrastructure.
- ❖ Monitoring the health of legacy systems using the Internal Tools.
- ❖ Supervising batch jobs and conducting troubleshooting activities.

- ❖ Monitoring the critical files and transferring them to the partner end.
- ❖ Shell Scripting and Script scheduling.
- ❖ Incident reporting and troubleshooting.

Anthem Commercial Business Solutions(CBS)

Role: Junior Process associate

Client: Anthem Inc.

Date: Nov 2018 to Oct 2020

Client Description: Anthem, Inc., is a provider of health insurance in the United States. It is the largest for-profit managed health care company in the Blue Cross Blue Shield Association

Responsibilities:

- ❖ CBS Benefit Coder in Anthem Inc.
- ❖ Benefit Configuration, Coding and Manual plan creation in WPD application.
- ❖ Analyse the Benefit Summary report and code the contracts based on the requirements.
- ❖ Analysing paper works submitted through Salesforce.

Worked as a team member to provide automation ideas to the RPA team and as part of automation, coordinated automation requirements for the team. Successfully automated certain areas of the process.

Technical Knowledges

Cloud Computing Platforms	AWS, GCP, IBM Cloud
Monitoring and Alerting	DataDog, Kibana, AppDynamics, Instana,
Data Analysis and Visualization	Data Studio
Automation	Jenkins, Ansible, Rundeck
Configuration Management	Terraform
Incident Management	PagerDuty
Ticketing Systems	Jira, ServiceNow
Scripting Languages	Bash, Groovy, Python
Databases	MySQL, PostgreSQL
Source Code Management	Git, SVN
Containerization and Orchestration	Docker, Kubernetes
Web Technologies	HTML, CSS, JavaScript, Bootstrap, JQuery, ASP.NET, PHP
Collaboration Tools	Confluence, Slack, Microsoft Teams, Zoom

CRM

Salesforce

Productivity Suites

Google Workspace, Microsoft 365, Slack

Experience

June 2025 –
Present

Site Reliability Engineer
Equifax, Trivandrum

Feb 2024 –
Jun 2025

Site Reliability Engineer
IBM India Private Limited, Kochi

Aug 2022 –
Feb 2024

Developer II - Software Engineering
Product Technology & Engineering Center (PTEC), Trivandrum
A UST Subsidiary Company

July 2022 –
Nov 2018

Developer II - Software Engineering
UST, Trivandrum.

Training Details

SRE Level 1

Completed SRE level 1, with internal hands-on training from UST,
March 2020 - June 2020

Academic Profile

2014 – 2017

Master of Computer Applications
65% Marks
Saintgits College of Engineering, Pathamuttom, Kottayam
M. G. University

2011 – 2014

Bachelor of Science – Mathematics
56% Marks
Bishop Abraham Memorial College, Thuruthicad, Pathanamthitta Dist.
M.G. University

2009 – 2011

Higher Secondary Education - Kerala
72% Marks
C.M.S. Higher Secondary School, Mallappally, Pathanamthitta Dist.
HSE – Kerala

2009

Tenth level

79% Marks

C.M.S. Higher Secondary School, Mallappally, Pathanamthitta Dist.
SSLC
